

7 THINGS YOU CAN DO TO IMPROVE HOME COMFORT

1. Summer Months Register Setting

During warm outside temperatures, **OPEN** registers on upper floor and **CLOSE** registers on first floor &/or basement

2. Winter Months Register Setting

During cold outside temperatures, **CLOSE** registers on upper floor and **OPEN** registers on first floor &/or basement

3. Place thermostat fan setting to "ON"

Leaving the fan "ON" balances the temperature throughout the areas in the home. The estimated cost of operation for continuous air circulation is approximately \$12 per month.

4. Prevent Airflow Restrictions

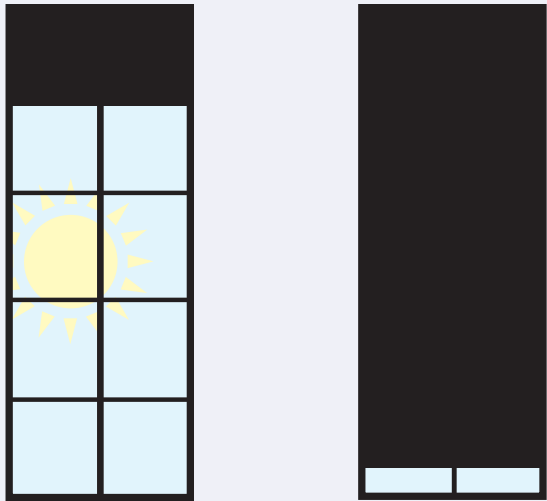

Do not cover registers with furniture or other large items that block airflow.

7 THINGS YOU CAN DO TO IMPROVE HOME COMFORT

5. Reduce Summer Solar Heating

Closing blinds and shades will help keep heat from infiltrating rooms

6. Maintain Proper Airflow

Make sure you check your furnace filter once a month.

7. Anticipate Cooling Needs In Advance

Precool the house prior to events with many people

Homes With Basements

If additional seasonal balancing is needed, open or close ductwork dampers as needed.
